South Central Wall, Ceiling & Plaster Association

AUGUST 2010

HISTORIC ASSOCIATION NAME CHANGE

Members voted unanimously at the June Annual Business Meeting in Galveston, Texas to change the name of the 58-year old Texas-based plaster association to the South Central Wall, Ceiling & Plaster Association (SCWCPA). Executive Director, Eddie McCormick said this was a historic event and a necessary move forward in order to reach out to potential members in the surrounding states of New Mexico and Arkansas. The Association already has members in Louisiana and Oklahoma.

With the new regional name, members from all of our neighboring states will feel like part of the Association, and be fairly represented to Architects, Owners, and General Contractors. The Walls and Ceilings part of the name goes hand and hand with our affiliation to AWCI. Together with this partnership and also embracing all aspects of the walls and ceilings trades, SCWCPA will become the premier trade association for all contractors in our industry.

Currently the SCWCPA is the only trade association in the area to offer a one stop shop for, education, certification programs, technical advice, jobsite reviews and walks, General Contractor educational seminars, and representation for members who need help with municipal-ity issues. So if you know of a company who is not getting all of these benefits, then introduce them to the South Central Wall, Ceilings & Plaster Association.

From the President ...

“Its Time”! That is the Texas Rangers new slogan this year and being a long time Ranger fan, its way past time. Over this past year we knew it was time to change many things and we did. Now “Its Time” to grow this association like never before. We need to be looked at as the place to go for education in our five-state region.

Our numbers need to grow 50% this year. There is strength in numbers. It will not be easy to achieve that kind of growth, it will take all of us. Every member of this association knows someone who could benefit from being a member of the South Central Wall, Ceiling and Plaster Association (SCWCPA). So the membership committee is all of us. If you need help talking to anyone about the SCWCPA, call someone on the board, Eddie, or myself. I am challenging every member to take 15 minutes of your time a week to promote the association that promotes our products and services on a daily basis the SCWCPA.

I told you at this years convention the best is yet to come, and I believe that “ITS TIME” to make it happen....
